

Uploading Observations on Tapestry

In today's Parenting post I am going to highlight the benefits of uploading on to your child's journal and how simple this can be.

The benefits of uploading-

- Staff are able to experience Real-time Updates: This gains insight into the child's home experiences, achievements, and challenges.
- Shared Goals: Helps parents and practitioners align on developmental and educational objectives.
- Engagement in Learning: Parents actively engage with their child's progress and milestones, making the child feel supported.
- Promotes communication and understanding, to reflect on recent events that your child has experienced and expand on their language.
- Conversations Starter: Journal entries provide topics for meaningful discussions at nursery.
- Celebrating Success: Recognising achievements together boosts the child's confidence.
- Families can provide context about traditions, culture and values within their home. This provides staff with a better understanding of your child's background, enabling more personalised support.

Additional Information

A guide on how to upload an observation-

If you would like support with setting up your account, please follow the link to view a video on how to do

this- <https://www.youtube.com/watch?v=n7ROkDnb4I0&list=PLthyVDX1AWQJeGUqAna3ZEhEqbgjdx0Yt>

IOS/ Android-

1. To create a new observation, press the '+' button at top right of your screen.
2. Type in the title which relates to your upload i.e 'The three billy goats gruff story'
3. Add notes to describe the reason for upload i.e. Chloe independently retells the three billy goats gruff story using props from Nursery.
4. Upload pictures/video- top tip this is very affective as we can show the pictures to your child and build on expanding their language and understanding of what has happened in recent events!

5. Once complete, click upload on the top right corner of screen.
6. Your upload will show the process of uploading, this may take a few minutes if the videos are a bit longer so keeping videos shorter are advised.
7. Your observation is complete! Look out in the following days for notifications of staff interactions on your post.

Desktop-

Please follow the link for uploading an observation through your desktop- <https://www.youtube.com/watch?v=espJ96TJHV8>

If you would like further support on this, please let me know and I can book in a meeting with you to go through this together.
